

DBIA-WPR LA/OC CHAPTER YPs BUILDING AUTOMATION SYSTEMS DEEP DIVE WITH SUNBELT CONTROLS

Join DBIA-WPR LA/OC Chapter Young Professionals for a presentation & networking event. Please join us as we learn about the fundamentals of Building Automation Systems and their applications in mechanical systems.

We will be provided a general overview of what a Building Automation System is and how it works. This will include interactive displays and hands-on demonstrations.

After the training is complete, we will have some time to network with bites and beverages.

This is a great opportunity to learn something new or deepen your knowledge and connect with the industry.

***This event is for YPs & Non-YPs. Non-YPs please bring YPs from your team to join you!
