

### La Costa Golf

It was a love of sport that first inspired La Costa's founders to turn a beautiful piece of the San Diego coastal foothills into a resort that would set the ultimate stage for championship golf and tennis in Southern California.

Founded in 1965, and almost as quickly, a who's who of the rich and famous flocked to the La Costa Resort and Spa to play the courses and courts, and to unwind at what was the first U.S. resort to offer a full-service spa. And although times have changed, the tradition of excellence continues to strengthen with every new guest. A \$50 million renovation has turned La Costa Resort and Spa into nothing short of a nature inspired sanctuary meticulously and stylishly fitted with redesigned rooms, facilities and grounds. The Spa at La Costa, long a retreat for wellness seekers, has recently been named the #1 Wellness Spa in the nation by Spa Magazine and Travel + Leisure's #4 Spa in North America. Golf's highest accolades are also sure to follow as resort guests and members play on the fully re-designed, internationally recognized Champions Course. La Costa Resort and Spa is again Southern California's premier resort destination.

### Proceeds from this tournament support DBIA-WPR Student Chapters and Scholarships

Continuing to educate upcoming Design Builders is one of the building blocks of our industry.

DBIA programs and golf tournaments help fund several student development activities including:

- Participating at the DBIA National Conference
- Sending teams to the Reno Competition
- Providing six \$5,000 DB Education Scholarships
- Sponsorships of student programs and events

The Western Pacific Region currently sponsors student chapters and activities at Long Beach State, Cal Poly San Luis Obispo, Chico State, Sacramento State, Stanford University with additional schools in developmental stages, including San Diego State University.

Thank you for your support of DBIA-WPR and especially for our up and coming students!!

## About the Design Build Institute of America

The Design-Build Institute of America (DBIA) was founded in 1993 to provide a voice for design-build practitioners, to advocate best practices, to create and disseminate educational information, and to furnish advice and support to facility owners and users. Its membership includes design-builders, construction contractors, design professionals, subcontractors, representatives of government agencies, academics and other professionals.

### Who Uses Design Build?

Design-Build is the project delivery system of choice on more than 50 percent of the non-residential construction projects in the European Community and more than 70 percent in Japan. In the United States, the private sector's use of design-build has been increasing during the past thirty years, and is found in a wide array of commercial, institutional and industrial applications. In the U.S. sector, the federal government, as well as many states and local governments, employ design-build contracting for a significant percentage of their building programs.
