

HOW PROGRESSIVE AND/OR COLLABORATIVE DESIGN-BUILD CAN WORK FOR YOU!!

Join DBIA San Diego to hear about progressive and collaborative design-build techniques. Panelists will discuss how it has worked for them on past projects; what their teams have learned from those projects and how that will inform future projects. They will show examples of successful collaboration techniques between owner, contractor and designer, and maybe answer the question of how to manage the age old problem of attaining speed, quality AND price!
