

# LEAN & GREEN: PROJECT DELIVERY METHODS IN THE SUSTAINABLE BIOTECH & LIFE SCIENCE INDUSTRIES

Join DBIA-WPR Bay Chapter at March luncheon. Design-Build project delivery is taking off with organizations all over California. DBIA and the International Institute for Sustainable Laboratories (I2SL) decided to get together to ask the questions:

- Is design-build the right choice for life-science buildings?
- Does the choice of delivery model affect sustainability?
- Why are some life-science organizations adopting design-build and others not?

To address these questions we assembled a panel of representatives from university and corporate life-science organizations, developers, project managers and construction managers to give you their takes on project delivery and to answer questions on what's the right approach. Join us for this informative session.

## DBIA-WPR BAY CHAPTER LUNCH TUESDAY, MARCH 17, 2020

11:30am - 1:30pm

**REGISTRATION ONLINE ONLY AT**  
**[dbiawpr.org](http://dbiawpr.org)**
