

TECHNOLOGY ROUNDTABLE: CUTTING-EDGE APPLICATIONS IMPACTING THE DESIGN AND CONSTRUCTION PROCESS

Join **DBIA LA/OC Chapter** and hear from firms who are leading the charge in integrating ever-changing technology into their design-build processes, and how this has impacted their ability to win and deliver work. A contractor, a technology consultant and a design firm will present how they've incorporated innovative practices into their workflow – from the stages of competing for work through project turnover. They will discuss topics ranging from time-saving opportunities, to increasing collaboration and efficiency, to a sneak-peek at what they believe the future of our industry will be.

LA/OC CHAPTER PRESENTATION PROGRAM THURSDAY, FEBRUARY 6, 2020

7:00am - 9:00am

REGISTRATION ONLINE ONLY AT
