

DBIA-WPR SAN DIEGO CHAPTER LUNCHEON ESG-DRIVEN EXCELLENCE: ENHANCING DESIGN- BUILD PROJECTS WITH SUSTAINABILITY

Join **DBIA-WPR San Diego** for a thought-provoking luncheon on “ESG-Driven Excellence: Enhancing Design-Build Projects with Sustainability” featuring speakers from City of San Diego, Verdani Partners and CRB. Corporate strategies increasingly recognize the importance of incorporating Environmental, Social, and Governance (ESG) principles into Request for Proposals (RFPs) and project execution. As ESG principles become integral to project financing and stakeholder expectations, design-build project delivery adapts by weaving sustainability, decarbonization, net-zero waste and net-zero energy into the fabric of RFPs and project execution. The result is a collaborative and holistic approach that not only aligns with global sustainability goals but also enhances project outcomes for all stakeholders involved. It’s sure to be an insightful discussion encompassing the past, present and (very near) future of ESG!
