

DBIA-WPR SACRAMENTO CHAPTER YOUNG PROFESSIONALS 5TH ANNUAL JOBWALK AND MIXER

Join the DBIA-WPR Sacramento YP's for a tour of the Resources Building Renovation Project and a mixer afterwards at Darling Aviary!

The project is a Progressive Design-Build service to renovate the existing 657,000 sf Resources Building. Originally built in 1964, the project will require demolition of the entire interior and exterior façade; transforming the facility into a sustainable and resilient 17-story office space while honoring the historic qualities of the original build. Target LEED Silver and Net Zero Energy.

After the tour, join us for a networking mix at Darling Aviary, refreshments are included!
