

About the Design Build Institute of America

The Design-Build Institute of America (DBIA) was founded in 1993 to provide a voice for design-build practitioners, to advocate best practices, to create and disseminate educational information, and to furnish advice and support to facility owners and users. Its membership includes design-builders, construction contractors, design professionals, subcontractors, representatives of government agencies, academics and other professionals.

Who Uses Design Build?

In the United States, the private sector's use of design-build has been increasing during the past thirty years, and is found in a wide array of commercial, institutional and industrial applications. In the U.S. sector, the federal government, as well as many states and local governments, employ design-build contracting for a significant percentage of their building programs.

Del Paso Country Club

Del Paso's championship park style design provides an enjoyable and challenging golf experience for all skill levels. The Club's pristine rye grass fairways, beautifully manicured bunkers and nationally renowned putting surfaces provide a unique experience for each round. Members can refine their game at the finest practice facilities in the region.

Proceeds to support DBIA Western Pacific Region including Student Chapters and Scholarships.

Design-build education is the core mission of DBIA. Our programs and golf tournaments provide financial support for student scholarships and DBIA student chapters at universities and colleges throughout Arizona, California, Hawaii and Nevada.
