

DBIA-WPR LA/OC CHAPTER YOUNG PROFESSIONALS AND SOCAL NOMA DEVELOPING PROFESSIONALS JOINT “WHAT’S IMPORTANT TO YOU?” PANEL

Join DBIA-WPR LA/OC Chapter Young Professionals and SoCAL National Organization of Minority Architects (NOMA) Developing Professionals for a Summer Social. Building from our successful panel last summer, we now ask “How do you manage different team’s priorities and align expectations on a project?” Our insightful panel of industry leaders represents each of the primary teams involved in a Design-Build project and they will share insight into what their priorities are, how they can see elements through other teams’ perspectives, the best ways to find a compromise as a team that needs to adjust for the good of the project, or as a moderator between other teams. They will talk about how to keep a growth mindset and establish a space for constant learning and openness to others on the team. Whether newer in your career or established, there will be something for you to take away from this presentation and share with your team.

Food & beverage will be provided with ample time to network with our friends in the industry.
