

# DBIA-WPR SAN DIEGO CHAPTER LUNCHEON SMALL-SCALE, BIG RESULTS: COLLABORATION AND INNOVATION IN HEALTHCARE

Join **DBIA-WPR San Diego** for a dynamic luncheon panel discussion on leveraging design-build delivery for small to mid-sized healthcare projects. We will explore how design-build—often celebrated for speeding up schedules and improving collaboration—can be a game-changer even at a smaller scale. With hospitals and clinics facing tight budgets, urgent timelines, and strict regulations, a one-team approach offers innovative ways to deliver quality facilities without compromising patient care. A diverse panel of experts (including an owner, a construction manager, and architect, a state healthcare building regulator, and a general contractor) will share real-world experiences and practical insights. Our panel will delve into effective strategies for success, lessons learned from recent projects, innovations in design and construction, navigating Department of Health Care Access and Information (HCAI) regulatory requirements, aligning with owner expectations, and tactics for fostering true collaboration among all stakeholders.
