

DBIA-WPR LA/OC CHAPTER AND SOCAL NOMA 3RD ANNUAL SUMMER SOCIAL WITH EDUCATIONAL PANEL

Join DBIA-WPR LA/OC Chapter Young Professionals and SoCAL National Organization of Minority Architects (NOMA) Developing Professionals for an exciting evening of networking, learning, and stunning views at our 3rd Annual Summer Social! We're proud to partner with SoCal NOMA for a 3rd year to bring together professionals from across the AEC industry for a dynamic and insightful event.

Connect with industry peers and gain valuable insights from a diverse panel of VDC experts—including an Owner, Architect, Trade Partner, Engineer, and Contractor. Together, they'll explore best practices for developing effective BIM Execution Plans and how to ensure these plans remain valuable tools throughout the Design and Construction phases.

Key Topics Include:

- How to kick off the BIM process with clarity and purpose
- Avoiding unnecessary requirements to save time and resources
- Real-world "pinch points" and how to navigate them
- Creating a plan that works for everyone on the project team

We're also thrilled to welcome the Director of VDC for DBIA, who will share updates on new DBIA resources launching this year—tools your team can use to start strong or course-correct on current projects.

Enjoy breathtaking, panoramic views of Los Angeles from our host location—Walter P. Moore's office at the top of the U.S. Bank Tower in Downtown LA. It's the perfect backdrop for an evening of inspiration and connection.

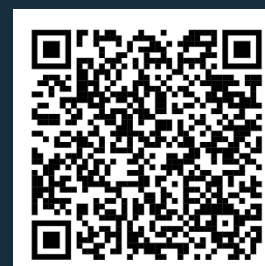

SOCAL | NOMA
