PRESENTATION OVERVIEW

Every owner goes through a different set of factors before deciding whether to use alternative delivery for their project. Owners have to quickly evaluate risk, cost and schedule impacts early in the planning phase to see if design-build is the right fit.

Three presenters will provide insightful information on their project delivery selection process. The owner panel are managing over \$200Mill in higher education capital programs in Southern California. This is a great opportunity to hear their expectations in utilizing design-build on their upcoming capital programs.
