

DESIGN-BUILD AT SFO

Understanding SFO's dynamic partnership in a design build setting, the successes and lessons learned of past design-build projects, and a look at current and future SFO design-build activity. Join us in San Francisco.

Tuesday, May 22, 2012 at 11:30am LUNCHEON

San Francisco Marriott Union Square, San Francisco

SPEAKER

Geoffrey W. Neumayr, SE
Associate Deputy Director
Project Management, Design & Construction
San Francisco International Airport

Geoff is the Associate Deputy Director for the San Francisco International Airport Design & Construction Project Management department and is responsible for the planning, design and construction of all the Airports major capital projects. He received his Bachelors of Science degree in Architectural

Engineering from California Polytechnic State University, San Luis Obispo in 1984. He holds both a civil and structural engineer license in California, Nevada and Florida. He has over 28 years in design and construction and has been responsible for the Project Management of some of the San Francisco Bay Area's most prestige's projects including the San Francisco International Airport BART Station and the newly completed Terminal 2 project. He is a big proponent of the team concept for the design and construction of public infrastructure projects, and is a firm believer that the design build delivery system is the cornerstone to creating a collaborative process and ultimately excellence in project development. Geoff also serves on the advisory board for the School of Architectural & Environmental Design Architectural Engineering department.

Moderated by Eric Kisshauer
