

DBIA WATER / WASTEWATER WORKSHOP: UPDATE AND OUTLOOK

Over a year has passed since California's water bond was passed in November 2014. This program will provide an update from three major municipal agencies in our region on their upcoming capital improvement program. In addition, our speakers will share their experience, including best practices and challenges, on recent design-build projects they have delivered. Don't miss this opportunity to learn about one of our most precious resources and the associated upcoming contract opportunities for the entire AEC community.
