The Country Club of Rancho Bernardo

This Private elite club country club opened its doors in 1967 and has been the pride of San Diego community ever since. The course was originally designed by William F. Bell and later updated by Ted Robison. Our 6,511 yard 18-hole course has been recognized as one of San Diego's "Best of the Best" golf courses by Connoisseur Golf & Travel and has played host to USGA Qualifying Tournaments and the Callaway Junior World Championship. Located in the rolling hills of Rancho Bernardo, the course features wide, tree-lined fairways, five sets of tees, immaculate course conditions, fast undulating greens, beautiful vistas and a challenge that can be enjoyed by all skill levels.

This event will include a box lunch, local craft brew by Division 23 Brewing, raffle, awards and dinner.

Proceeds to support DBIA-Western Pacific Region including student chapters & scholarships.

Add: Tee Prizes

Continuing to educate upcoming Design Builders is one of the building blocks of our industry. Our programs and golf tournaments help fund several student development activities:

- Participation at our National Conferences
- Teams to the Reno DB competition
- Ten \$4,000 Scholarships
- Sponsorships of programs and student events

The Western Pacific Region currently sponsors student chapters and activities at Long Beach State, Cal Poly San Luis Obispo, Chico State, Sacramento State, Stanford University with additional schools in the development stages. Thank you for your support of DBIA-WPR and especially up and coming students!!

About the Design Build Institute of America

The Design-Build Institute of America (DBIA) was founded in 1993 to provide a voice for design-build practitioners, to advocate best practices, to create and disseminate educational information, and to furnish advice and support to facility owners and users. Its membership includes design-builders, construction contractors, design professionals, subcontractors, representatives of government agencies, academics and other professionals.

Who Uses Design Build?

Design-Build is the project delivery system of choice on more than 50 percent of the non-residential construction projects in the European Community and more than 70 percent in Japan. In the United States, the private sector's use of design-build has been increasing during the past thirty years, and is found in a wide array of commercial, institutional and industrial applications. In the U.S. sector, the federal government, as well as many states and local governments, employ design-build contracting for a significant percentage of their building programs.
